

# Rajendra Rawat

## AI Engineering & Strategy

Melbourne, Australia | [GitHub](#) | [LinkedIn](#) | [Kaggle](#)

---

## Mission

"To free humans from becoming machines, and be more Humane."

My mission is to raise human intelligence and consciousness to its full potential via automation and sovereign AI.

---

## Current Work

### ✓ COGNI-BRAIN

#### Hardened agentic deployment on DGX Spark

Nemotron-3-Super-120B running at 23.2 TPS with NemoHermes inside an OpenShell kernel-level sandbox. No cloud, no data leak.

- [View Repository](#)

### ✓ SAGE-GPT

#### Sanskrit SLM trained entirely from scratch on DGX Spark

7.5M parameter decoder-only Transformer trained on ~140M Sanskrit tokens. Grokking strategy induced for genuine generalization.

- [View Repository](#)

### ✓ COGNI.CHAT

#### Local-first multimodal AI agent platform

Orchestrating Cogni intelligence designed to support the human mind, body, and spirit.

- [Visit cogni.chat](#)

## ✓ FIDUCIARY-OPS-AGENT

### Autonomous enterprise governance agent

Check-then-Act protocol via Gemini 2.5 Flash Lite. Enforces real-time fiduciary risk-alignment.

- [View Repository](#)
- 

## Experience

### 2021 — PRESENT

#### ✓ Tribe Lead · Digital Strategy & R&D

*Chemist Warehouse (ASX:SIG) · Melbourne*

Spearheaded MACH transformation; currently shaping AI strategy

### 2018 — 2020

#### ✓ Technical Program Lead

*ACU (via Espire) · Melbourne*

Advisor to CIO. Led global cloud transformation resulting in Microsoft Global Case Studies.

### 2013 — 2021

#### ✓ Director of Technology · Emerging Tech

*Espire Infolabs · Gurugram*

Incubated multi-million dollar AI/IoT Centres of Excellence and pioneering R&D.

### 2006 — 2013

#### Consultant

*Microsoft · Hyderabad*

Architected mission-critical systems for Fortune Global 500: Chevron, Merck, Franklin Templeton.

---
